

Putting the chair back in the box.

- 1: For the Dynamic: first place the lumbar support in the *highest* position by loosening the upper adjustment knob on the back and sliding the lumbar support all the way up. Then, flip the entire back support forward by giving it a quick firm push.

For all other models: Place the lumbar support in the *lowest* position.

Photo 1

- 2: Adjust the seat height such that the top of the chair matches the rim of the cardboard box (photo 2).

Photo 2

- 3: Fold and tape the box securely (photo 3).

Photo 3

- 4: The carrier will pick up the box.

**PLEASE MAKE SURE THE CHAIR FITS PRECISELY IN THE BOX
AND THAT THERE ARE NO PRESSURE POINTS OR ELEVATED BUMPS.**
